Our Business

We are a leading technology solutions provider to the global travel and tourism industry. We span the breadth of a highly complex \$7 trillion global travel ecosystem, providing key software and services to a broad range of travel suppliers and travel buyers. Through our Travel Network business segment, we process hundreds of millions of transactions annually, connecting the world’s leading travel suppliers, including airlines, hotels, car rental brands, rail carriers, cruise lines and tour operators, with travel buyers in a comprehensive travel marketplace. We offer efficient, global distribution of travel content from approximately 400 airlines and 175,000 hotel properties to approximately 400,000 online and offline travel agents. To those agents, we offer a platform to shop, price, book and ticket comprehensive travel content in a transparent and efficient workflow. We also offer value-added solutions that enable our customers to better manage and analyze their businesses. Through our Airline and Hospitality Solutions business segment, we offer airlines and hoteliers an extensive suite of leading software solutions, ranging from airline and hotel reservations systems to high-value marketing and operations solutions, such as dynamic retailing of ancillaries, planning airline crew schedules, planning route and schedule configurations, re-accommodating passengers during irregular flight operations and managing day-to-day hotel operations. These solutions allow our customers to market, distribute and sell their products more efficiently, manage their core operations, and deliver an enhanced travel experience. Through our complementary Travel Network and Airline and Hospitality Solutions businesses, we believe we offer the broadest, end-to-end portfolio of technology solutions to the travel industry.

Our portfolio of technology solutions has enabled us to become the leading end-to-end technology provider in the travel industry. For example, we are one of the largest global distribution systems (“GDSs”) providers in the world, with a 36% share of GDS-processed air bookings in 2014. More specifically, we are the leading GDS provider in North America and in higher growth markets such as Latin America and Asia Pacific (“APAC”), in each case based on GDS-processed air bookings in 2014. In those three markets, our GDS-processed air bookings share was approximately 50% on a combined basis in 2014. In our Airline and Hospitality Solutions business, we believe we have the most comprehensive portfolio of solutions. In 2014, we had the largest third-party hospitality Central Reservation System (“CRS”) room share based on our approximately 32% share of third-party hospitality CRS hotel rooms distributed through our GDS, and, according to Travel Technology Research (“T2RL”)’s Market for Airline Passenger Services Systems-2014 (“T2RL PSS”) data for 2013, we had the second largest airline reservations system globally. We also believe that we have the leading portfolio of airline marketing and operations products.

We operate through two business segments: Travel Network and Airline and Hospitality Solutions. Financial information about our business segments and geographic areas is provided in Note 18, Segment Information, to our consolidated financial statements in Part II, Item 8 in our Annual Report on Form 10-K for the year ended December 31, 2014 and in Note 11, Segment Information, to our unaudited consolidated financial statements in Part I, Item 1 in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2015, each incorporated by reference herein.

For the three months ended March 31, 2015 and 2014, we recorded revenue of \$710 million and \$666 million, respectively, net income (loss) attributable to Sabre Corporation of \$207 million and \$(3) million respectively, and Adjusted EBITDA of \$244 million and \$211 million, respectively, reflecting a 29% and less than (1)% net income (loss) margin and a 34% and 32% Adjusted EBITDA margin, respectively. For the years ended December 31, 2014 and 2013, we recorded revenue of \$2,631 million and \$2,524 million, respectively, net income (loss) attributable to Sabre Corporation of \$69 million and \$(100) million respectively, and Adjusted EBITDA of \$840 million and \$779 million, respectively, reflecting a 3% and (4)% net income (loss) margin and a 32% and 31% Adjusted EBITDA margin, respectively. For additional information regarding Adjusted EBITDA, including a reconciliation of Adjusted EBITDA to the most directly comparable measure prepared in accordance with accounting principles generally accepted in the United States (“GAAP”), see “—Summary Consolidated Financial and Other Data—Non-GAAP Measures.” For the three months ended March 31, 2015, Travel Network contributed 71% and Airline and Hospitality Solutions contributed 29% of our revenue, respectively (excluding intersegment eliminations). During this period, shares of Adjusted EBITDA for Travel Network and Airline and Hospitality Solutions were approximately 76% and 24%, respectively (excluding corporate overhead allocations such as finance, legal, human resources and certain information technology shared services). For the year ended December 31, 2014, Travel Network contributed 70% and Airline and Hospitality Solutions contributed 30% of our revenue, respectively (excluding intersegment eliminations). During this period, shares of Adjusted EBITDA for Travel Network and Airline and Hospitality Solutions were approximately 73% and 27%, respectively (excluding corporate overhead allocations such as finance, legal, human resources and certain information technology shared services).

Travel Network

Travel Network is our global business-to-business travel marketplace and consists primarily of our GDS and a broad set of solutions that integrate with our GDS to add value for travel suppliers and travel buyers. Our GDS facilitates travel by efficiently bringing together travel content such as inventory, prices, and availability from a broad array of travel suppliers, including airlines, hotels, car rental brands, rail carriers, cruise lines and tour operators, with a large network of travel buyers, including online and offline travel agencies, TMCs and corporate travel departments. We are one of the largest GDS providers in the world, with a 36% share of GDS-processed air bookings in 2014. In 2014, our systems processed over \$110 billion of estimated travel spending across 174 countries, including managing approximately 48 million hotel room nights. In our Travel Network business, 95% of our revenue was Recurring Revenue in 2014 and our Customer Retention rate for the same year was 99%. Our Travel Network renewed all planned supplier contracts in 2013 and 2014. See “Method of Calculation” for a description of Recurring Revenue and Customer Retention.

Airline and Hospitality Solutions

Our Airline and Hospitality Solutions business offers a broad portfolio of software technology products and solutions, through software-as-a-service (“SaaS”) delivery model, to airlines, hotel properties and other travel suppliers. Airline and Hospitality Solutions aggregates our Airline Solutions and Hospitality Solutions operating segments.

Airline Solutions—Our Airline Solutions business provides industry-leading and comprehensive software solutions that help our airline customers better market, sell, serve and operate. We offer airline software solutions in three functional suites: our reservation system, SabreSonic Customer Sales & Service (“SabreSonic CSS”); and our commercial and operations solutions, Sabre AirVision Marketing & Planning and Sabre AirCentre Enterprise Operations. SabreSonic CSS provides comprehensive capabilities around managing sales and customer service across an airline’s diverse touch points. Sabre AirVision Marketing & Planning is a set of strategic airline commercial planning solutions that focuses on helping our customers improve revenue and profitability and develop their brand. Sabre AirCentre Enterprise Operations is a set of strategic solutions that drive operational effectiveness through holistic planning and management of airline, airport and customer operations. In our Airline Solutions business, 82% of our revenue was Recurring Revenue in 2014 and our Customer Retention rate for the same year was 98%. See “Method of Calculation” for a description of Recurring

Revenue and Customer Retention. Over the last five years, we have added airline customers representing over 110 million annual passengers boarded (“PBs”) from many innovative, fast-growing airlines such as Etihad Airways, Virgin Australia, JetBlue and LAN. Although the number of new reservations opportunities varies materially by year, in 2014, T2RL estimated that contracts representing over 1 billion PBs will come up for renewal between 2015 to 2018, of which approximately 0.9 billion PBs are from airlines who do not pay us PB fees today. As of May 2015, airlines won but not yet implemented by Sabre boarded over 290 million PBs in 2013, according to T2RL data. This includes a long-term agreement announced in January 2014 with American Airlines for Sabre to be its reservations system provider following its merger with US Airways and other more recent agreements, including Air Berlin announced in May 2014, Alitalia and Copa Airlines announced in January 2015 and TAM announced in May 2015.

Hospitality Solutions—Our Hospitality Solutions business has agreements to provide software and solutions to hotel properties around the world, and including our new agreement with Wyndham Hotel Group our hotel property portfolio has grown by approximately 150% since 2008. Our offerings include distribution through our SynXis CRS, property management through Sabre Property Management System (“PMS”), marketing services and consulting services that optimize distribution and marketing. In our Hospitality Solutions business, 93% of our revenue was Recurring Revenue in 2014 and our Customer Retention rate for the same year was 98%. See “Method of Calculation” for a description of Recurring Revenue and Customer Retention.

On September 11, 2014, we acquired the assets of Genares Worldwide Reservation Services, Ltd., a global, privately-held hospitality technology company. The acquisition added more than 2,300 independent and chain hotel properties to Hospitality Solutions’ portfolio.

Our Industry

The travel and tourism industry is one of the world’s largest industry segments, contributing \$7 trillion to global GDP in 2013, according to the World Travel & Tourism Council’s Economic Impact of Travel & Tourism 2014. The industry encompasses travel suppliers, including airlines, hotels, car rental brands, rail carriers, cruise lines and tour operators around the world, as well as travel buyers, including online and offline travel agencies, TMCs and corporate travel departments.

The travel and tourism industry has been a growing area of the broader economy. For example, based on 40 years of data from the IATA Monthly Traffic Analysis Archives, air traffic has historically grown at an average rate of approximately 1.5 times the rate of global GDP growth. According to IATA’s Airline Industry Forecast 2013-2017, overall air travel is expected to sustain a growth rate approaching the historical 5% to 6% growth trend at least through 2017, and Boeing’s Current Market Outlook projects a 5% CAGR in global passenger traffic growth from 2013 to 2033, measured in revenue passenger kilometers. Internal estimates indicate that there are currently approximately 430,000 global hotel properties, representing an estimated total spend of \$5.3 billion, and internal estimates also indicate a current addressable market with respect to Airline Solutions of approximately \$4.4 billion.

Technology is integral to that growth, enabling the operation of the modern travel ecosystem by powering the industry lifecycle from distribution to operations. With the increasing complexity created by the large, fragmented and global nature of the travel industry, reliance on technology will only increase. That reliance drove technology spending by the air transportation and hospitality industries to \$60 billion in 2013, with expenditures expected to exceed \$70 billion in 2017, according to Gartner Enterprise IT Spending by Vertical Industry Market, Worldwide, 2011-2017. Some recent trends in the travel industry which we expect to benefit from, and are building comprehensive solutions for, include:

- **Outsourcing:** As complexity and the pace of innovation have increased, third-party providers have emerged to offer more cost-effective and advanced solutions to the travel industry.

- **Airline Ancillary Revenue:** Enabling the sale of ancillary products is technologically complex and requires coordinated changes to multiple interdependent systems including reservations platforms, inventory systems, point of sale locations, revenue accounting, merchandising, shopping, analytics and other systems.
- **Mobile:** Mobile platforms have created new ways for customers to research, book and experience travel. Accordingly, travel suppliers, including airlines and hospitality providers, are upgrading their systems to allow for delivery of services via mobile platforms from booking to check-in to travel management.
- **Personalization:** Concurrently with the rise of ancillary products and mobile devices as a customer service tool, travel suppliers have an opportunity to provide increased personalization across the customer travel experience, from seat selection and on-board entertainment to loyalty program management and mobile concierge services.
- **Data and Analytics:** Today, analytics-driven business intelligence products are evolving to further and better utilize available data to help travel companies make decisions, serve customers, optimize their operations and analyze their competitive landscape.

Our Competitive Strengths

We believe the following attributes differentiate us from our competitors and have enabled us to become a leading technology solutions provider to the global travel industry.

- We offer the broadest, most comprehensive technology solutions portfolio available to the travel industry from a single provider, and our solutions are key to the operations of many of our travel supplier and travel agency customers. We believe that our Travel Network and Airline and Hospitality Solutions offerings address customer needs across the entire travel lifecycle, and that we are the only company that provides such a broad portfolio of technology solutions to the travel industry.
- We operate in areas of the global travel industry that have large and growing addressable customer bases. Each of our businesses is a leader in its respective area. Sabre is the leading GDS provider in North America, Latin America, and APAC, with 54%, 57%, and 39% share of GDS-processed air bookings, respectively, in 2014. Additionally, Airline Solutions is the second largest provider of reservations systems, with an 18% global share of 2013 PBs, according to T2RL PSS and Hospitality Solutions is the leading third-party provider of Central Reservations Solutions globally.
- Two pillars underpin our technology strategy: innovation and scalability. To drive innovation in our travel marketplace business, we make significant investments in technology to develop new products and add incremental features and functionality, including advanced algorithms, decision support, data analysis and other valuable intellectual property. In 2013, our platform processed more than 1.1 trillion system messages, with peak volumes of nearly 100,000 system messages per second and an average response time of less than three seconds. Our data centers have more than 15,000 servers/virtual machines and leverage over 10,000 terabytes of storage. This investment is supported by our global technology teams comprising approximately 4,000 employees and contractors. This scale and cross-business technology organization creates efficiency and a flexible environment that allows us to apply knowledge and resources across our broad product portfolio, which in turn fuels innovation.
- Travel Network and much of Airline and Hospitality Solutions operate with a transaction-based business model that ties our revenue to a travel supplier's transaction volumes rather than to its unit pricing for an airplane ticket, hotel room or other travel product. Travel-related businesses with volume-based revenue models have generally shown strong visibility, predictability and resilience across economic cycles because travel suppliers have historically sought to maintain traveler volumes by reducing prices in an economic downturn.

- We have strong, long-standing customer relationships with both travel suppliers and travel buyers. These relationships have allowed us to gain a deep understanding of our customers' needs, which positions us well to continue introducing new products and services that add value by helping our customers improve their business performance. In our Travel Network business, for example, by providing efficient and quality services, we have developed and maintained strong customer relationships with TMCs, major corporate travel departments and travel suppliers, with some of these relationships dating back over 20 years.
- Our management team is highly experienced, with comprehensive expertise in the travel and technology industries. Many of our leaders have more than 20 years of experience in multiple segments of the travel industry and have held positions in more than one of our businesses, which provides them with a holistic and interdisciplinary perspective on our company and the travel industry.

Our Strategy

We are an innovative technology company that aims to lead the travel industry by helping our customers succeed. The key elements of our strategy include:

- We have made significant investments in our technology platforms and infrastructure to develop robust, scalable software as well as SaaS and hosted solutions. We plan to continue leveraging these investments across our Travel Network and Airline and Hospitality Solutions businesses to catalyze product innovation and speed-to-market. We will also continue to shift toward SaaS and hosted infrastructure and solutions as we further develop our product portfolio.
- The development of cutting-edge products and capabilities has been critical to our success and we have a long history of investment in innovation. We plan to continue to invest significant resources in solutions that address key customer needs which include retailing solutions, mobile capabilities, data analytics and business intelligence and workflow optimization. For example, TripCase, our travel management app, managed more than 30 million trips in 2014.
- We intend to remain a global travel business of choice for travel suppliers and travel buyers. We will seek geographic expansion by deepening our presence in high-growth geographies in Europe, including high-growth Eastern European markets, Asia Pacific and Latin America.
- We will focus on adding new airline reservations customers and attracting and enabling new marketplace content. We will continue to pursue new customers and marketplace content through seeking to actively add new travel supplier content to Travel Network and continuing to pursue new customers for our Airline Solutions business.
- We believe there is an opportunity to sell more of our extensive solution set to our existing customers. By leveraging our brand, we intend to strengthen relationships with existing customers, including promoting the adoption of our products within and across our existing customers.

In 2007, we were acquired by the TPG Funds and the Silver Lake Funds. On March 30, 2007, we entered into a Stockholders' Agreement by and among the TPG Funds, the Silver Lake Funds, Sovereign Co-Invest, LLC ("Sovereign Co-Invest," an entity co-managed by TPG and Silver Lake, and together with the TPG Funds and the Silver Lake Funds, the "Principal Stockholders"), and Sabre Corporation (formerly known as Sovereign Holdings, Inc.), which was amended and restated in connection with our initial public offering (as amended and restated, the "Stockholders' Agreement"). See "Certain Relationships and Related Party Transactions—Stockholders' Agreement," incorporated by reference herein from our definitive proxy statement on Schedule 14A filed on April 17, 2015 (the "2015 Proxy Statement") and "Description of Common Stock—Stockholders' Agreement" in the accompanying prospectus.

Summary of Corporate Structure

Recent Developments

On May 14, 2015, Sabre entered into an agreement (the “Purchase Agreement”) to acquire all of the shares of capital stock of Abacus International Pte Ltd (“Abacus”) held by Abacus International Holdings Ltd (“Abacus Holdings”). Abacus is a Singapore-based business-to-business travel e-commerce provider that serves the Asia-Pacific region, which is the largest travel market and fastest growing region by GDP in the world. Sabre currently indirectly owns 35% of the outstanding shares of capital stock of Abacus. Following the closing of the transaction, Abacus will become an indirect, wholly-owned subsidiary of Sabre.

The aggregate purchase price for the shares to be acquired is payable in cash at closing in an amount equal to 65% of the following (i) \$632 million plus (ii) Abacus’ and its subsidiaries’ actual cash and cash equivalents net of indebtedness. The purchase price is subject to a net working capital adjustment. Sabre expects to fund the acquisition of these shares with a combination of \$250 million of cash on hand, together with draws on its revolving credit facility and debt financing. The acquisition is not conditioned on receipt of financing by Sabre. Sabre expects that the acquisition of Abacus and the national marketing companies described below will require approximately \$500 million in funds, including advisory and financing costs.

The acquisition is expected to close during the third quarter of 2015, subject to regulatory approvals and the satisfaction of certain customary closing conditions. The acquisition includes new long-term distribution agreements between Abacus and the owner carriers that own an interest in Abacus Holdings, the effectiveness of which are conditioned upon the closing of the transaction. In addition, Sabre expects that Abacus will acquire all or a controlling interest in certain national marketing companies in the Asia-Pacific region. Abacus currently owns minority interests in these national marketing companies, and it is expected that these acquisitions would close at or about the same time as the Purchase Agreement. We cannot assure you that these acquisitions will occur on the terms described herein or at all.

The description of the Purchase Agreement and the transaction is qualified in its entirety by reference to the copy of the agreement filed as Exhibit 2.1 to our Current Report on Form 8-K filed with the SEC on May 14, 2015, which is incorporated herein by reference.

- (1) Net income (loss) attributable to non-controlling interests represents an adjustment to include earnings allocated to non-controlling interest held in (i) Sabre Travel Network Middle East of 40% for all periods presented, (ii) Sabre Australia Technologies I Pty Ltd ("Sabre Pacific") of 49% through February 24, 2012, the date we sold this business, (iii) Travelocity.com LLC of approximately 9.5% through December 31, 2012, the date we merged this minority interest back into our capital structure and (iv) Sabre Seyahat Dagitim Sistemleri A.S. of 40% beginning in April 2014. See Note 1, Summary of Business and Significant Accounting Policies, to our audited consolidated financial statements in Part II, Item 8 in our Annual Report on Form 10-K for the year ended December 31, 2014.
- (2) Represents asset impairment charges as well as \$24 million in 2012 of our share of impairment charges recorded by one of our equity method investments, Abacus.
- (3) Depreciation and amortization expenses:
 - a. Acquisition related amortization represents amortization of intangible assets from the take-private transaction in 2007 as well as intangibles associated with acquisitions since that date and amortization of the excess basis in our underlying equity in joint ventures.
 - b. Depreciation and amortization of property and equipment includes software developed for internal use.
 - c. Amortization of capitalized implementation costs represents amortization of upfront costs to implement new customer contracts under our SaaS and hosted revenue model.
- (4) Our Travel Network business at times provides upfront incentive consideration to travel agency subscribers at the inception or modification of a service contract, which are capitalized and amortized to cost of revenue over an average expected life of the service contract, generally over three to five years. Such consideration is made with the objective of increasing the number of clients or to ensure or improve customer loyalty. Such service contract terms are established such that the supplier and other fees generated over the life of the contract will exceed the cost of the incentive consideration provided upfront. Such service contracts with travel agency subscribers require that the customer commit to achieving certain economic objectives and generally have terms requiring repayment of the upfront incentive consideration if those objectives are not met.

- (5) In 2014, other, net primarily includes a fourth quarter charge of \$66 million as a result of an increase to our tax receivable agreement (“TRA”) liability. The increase in our TRA liability is due to a reduction in a valuation allowance maintained against our deferred tax assets. This charge is fully offset by an income tax benefit recognized in the fourth quarter of 2014 from the reduction in the valuation allowance which is included in tax impacts of net income adjustments. In the three months ended March 31, 2015 and 2014, and years ended December 31, 2013 and 2012, other, net primarily represents foreign exchange gains and losses related to the remeasurement of foreign currency denominated balances included in our consolidated balance sheets into the relevant functional currency. See Item 7, “Management’s Discussion and Analysis of Financial Condition and Results of Operations—Liquidity and Capital Resources—Recent Events Impacting Our Liquidity and Capital Resources—Tax Receivable Agreement” in our Annual Report on Form 10-K for the year ended December 31, 2014 for additional information regarding the TRA.
- (6) Restructuring and other costs represents charges associated with business restructuring and associated changes implemented which resulted in severance benefits related to employee terminations, integration and facility opening or closing costs and other business reorganization costs.
- (7) Acquisition-related costs represent fees and expenses incurred associated with the acquisition of Abacus.
- (8) Litigation settlement and other litigation costs represent settlements or charges associated with airline antitrust litigation.
- (9) We paid an annual management fee to TPG and Silver Lake in an amount between (i) \$5 million and (ii) \$7 million, the actual amount of which is calculated based upon 1% of Adjusted EBITDA, as defined in the management services agreement (the “MSA”), earned by the company in such fiscal year up to a maximum of \$7 million. In addition, the MSA provided for the reimbursement of certain costs incurred by TPG and Silver Lake, which are included in this line item. The MSA was terminated in connection with our initial public offering.
- (10) In 2014, the tax impact on net income adjustments includes a \$66 million benefit recognized in the fourth quarter of 2014 from the reduction in a valuation allowance maintained against our deferred tax assets.
- (11) The adjustments to reconcile cash provided by operating activities to Adjusted Free Cash Flow reflect the amounts expensed in our statements of operations in the respective periods adjusted for cash and non-cash portions in instances where material.
- (12) Includes payment credits used by American Airlines to pay for purchases of our technology services during the three months ended March 31, 2015 and 2014, and the years ended December 31, 2014 and 2013. The payment credits were provided by us as part of our litigation settlement with American Airlines. Also includes a \$50 million payment to American Airlines made in the third quarter of 2014 in conjunction with the new Airline Solutions contract, which will be amortized as a reduction to revenue over the contract term. This payment reduces payment credits originally offered to American Airlines as a part of the litigation settlement in 2012, contingent upon the signature of a new reservation agreement, which were extended to include the combined American Airlines and US Airways reservation contract. The payment credits would have been utilized for future billings under the new agreement.

Definitions of Non-GAAP Financial Measures

We have included both financial measures compiled in accordance with GAAP and certain non-GAAP financial measures, including Adjusted Gross Margin, Adjusted Net Income, Adjusted EBITDA, Adjusted Capital Expenditures, Free Cash Flow, Adjusted Free Cash Flow and ratios based on these financial measures.

We define Adjusted Gross Margin as operating income (loss) adjusted for selling, general and administrative expenses, amortization of upfront incentive consideration, and the cost of revenue portion of depreciation and amortization, restructuring and other costs, and stock-based compensation.

We define Adjusted Net Income as income (loss) from continuing operations adjusted for impairment, acquisition-related amortization, loss on extinguishment of debt, other, net, restructuring and other costs, acquisition-related costs, litigation costs, stock-based compensation, management fees and the tax impact of net income adjustments.

We define Adjusted EBITDA as Adjusted Net Income adjusted for depreciation and amortization of property and equipment, amortization of capitalized implementation costs, amortization of upfront incentive consideration, interest expense, net, and remaining provision for income taxes. This Adjusted EBITDA metric differs from (i) the EBITDA metric referenced in the section entitled “—Liquidity and Capital Resources—Senior Secured Credit Facilities,” which is calculated for the purposes of compliance with our debt covenants, and (ii) the Pre-VCP EBITDA and EBITDA metrics referenced in the section entitled “Compensation Discussion and Analysis” in our 2015 Proxy Statement, which are calculated for the purposes of our annual incentive compensation program and performance-based awards, respectively.

We define Adjusted Capital Expenditures as additions to property and equipment and capitalized implementation costs during the periods presented.

We define Free Cash Flow as cash provided by operating activities less cash used in additions to property and equipment. We define Adjusted Free Cash Flow as Free Cash Flow plus the cash flow effect of restructuring and other costs, acquisition-related costs, litigation settlement, other litigation costs and management fees.

These non-GAAP financial measures are key metrics used by management and our board of directors to monitor our ongoing core operations because historical results have been significantly impacted by events that are unrelated to our core operations as a result of changes to our business and the regulatory environment. We believe that these non-GAAP financial measures are used by investors, analysts and other interested parties as measures of financial performance and to evaluate our ability to service debt obligations, fund capital expenditures and meet working capital requirements. Adjusted Capital Expenditures includes cash flows used in investing activities, for property and equipment, and cash flows used in operating activities, for capitalized implementation costs. Our management uses this combined metric in making product investment decisions and determining development resource requirements. We also believe that Adjusted Gross Margin, Adjusted Net Income, Adjusted EBITDA and Adjusted Capital Expenditures assist investors in company-to-company and period-to-period comparisons by excluding differences caused by variations in capital structures (affecting interest expense), tax positions and the impact of depreciation and amortization expense. In addition, amounts derived from Adjusted EBITDA are a primary component of certain covenants under our senior secured credit facilities.

Adjusted Gross Margin, Adjusted Net Income, Adjusted EBITDA, Adjusted Capital Expenditures, Free Cash Flow, Adjusted Free Cash Flow and ratios based on these financial measures are not recognized terms under GAAP. These non-GAAP financial measures and ratios based on them have important limitations as analytical tools, and should not be viewed in isolation and do not purport to be alternatives to net income as indicators of operating performance or cash flows from operating activities as measures of liquidity. These non-GAAP financial measures and ratios based on them exclude some, but not all, items that affect net income or cash flows from operating activities and these measures may vary among companies.

Our use of these measures has limitations as an analytical tool, and you should not consider them in isolation or as substitutes for analysis of our results as reported under GAAP. Some of these limitations are:

- although depreciation and amortization are non-cash charges, the assets being depreciated and amortized may have to be replaced in the future, and Adjusted Gross Margin and Adjusted EBITDA do not reflect cash requirements for such replacements;

- Adjusted Net Income and Adjusted EBITDA do not reflect changes in, or cash requirements for, our working capital needs; Adjusted EBITDA does not reflect the interest expense or the cash requirements necessary to service interest or principal payments on our indebtedness;
- Adjusted EBITDA does not reflect tax payments that may represent a reduction in cash available to us;
- Free Cash Flow and Adjusted Free Cash Flow do not reflect the cash requirements necessary to service the principal payments on our indebtedness;
- Free Cash Flow and Adjusted Free Cash Flow do not reflect payments related to restructuring, litigation, acquisition-related and management fees;
- Free Cash Flow and Adjusted Free Cash Flow remove the impact of accrual-basis accounting on asset accounts and non-debt liability accounts; and
- other companies, including companies in our industry, may calculate Adjusted Gross Margin, Adjusted Net Income, Adjusted EBITDA, Adjusted Capital Expenditures, Free Cash Flow or Adjusted Free Cash Flow differently, which reduces their usefulness as comparative measures.

RISK FACTORS

Investing in our common stock involves a high degree of risk. You should consider carefully the following risks and other risks and uncertainties described under “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, as such discussion may be amended or updated in other reports filed by us with the SEC, and in other documents that are incorporated by reference in this prospectus supplement and the accompanying prospectus.

Risks Related to the Offering and our Common Stock

The market price and trading volume of our common stock may be volatile, which could result in rapid and substantial losses for our stockholders.

Since our initial public offering on April 17, 2014 through May 15, 2015, the price of our common stock has ranged from a low of \$14.86 on October 14, 2014 to a high of \$26.71 on May 15, 2015. In the future, the market price of our common stock may be highly volatile and could be subject to wide fluctuations. In addition, the trading volume in our common stock may fluctuate and cause significant price variations to occur. If the market price of our common stock declines significantly, you may be unable to resell your shares at or above the price at which you purchased them, if at all. The market price of our common stock may fluctuate or decline significantly in the future. Factors that could negatively affect our share price or result in fluctuations in the price or trading volume of our common stock include, but are not limited to, those listed in the “Risk Factors” section in our Annual Report on Form 10-K for the year ended December 31, 2014, which is incorporated by reference herein, and the following, some of which are beyond our control regardless of our actual operating performance:

- actual or anticipated quarterly variations in operational results and reactions to earning releases or other presentations by company executives;
- failure to meet the expectations of securities analysts and investors;
- rating agency credit rating actions;
- the contents of published research reports about us or our industry or the failure of securities analysts to cover our common stock;
- any increased indebtedness we may incur in the future;
- actions by institutional stockholders;
- speculation or reports by the press or the investment community with respect to us or our industry in general;
- increases in market interest rates that may lead purchasers of our shares to demand a higher yield;
- changes in our capital structure;
- announcements of dividends;
- additional future sales of our common stock by us, the Principal Stockholders or members of our management;
- announcements of technological innovations or new services by us or our competitors or new entrants into the industry;
- announcements by us, our competitors or vendors of significant contracts, acquisitions, joint marketing relationships, joint ventures or capital commitments;
- loss of a major travel supplier or global travel agency subscriber;
- changes in the status of intellectual property rights;
- third-party claims or proceedings against us or adverse developments in pending proceedings;
- additions or departures of key personnel;
- changes in applicable laws and regulations;

[Table of Contents](#)

- negative publicity for us, our business or our industry;
- changes in expectations or estimates as to our future financial performance or market valuations of competitors, customers or travel suppliers;
- results of operations of our competitors; and
- general market, political and economic conditions, including any such conditions and local conditions in the markets in which our customers are located.

Volatility in our stock price could also make us less attractive to certain investors, and/or invite speculative trading in our common stock or debt instruments.

In addition, securities exchanges, and in particular the NASDAQ, have experienced extreme price and volume fluctuations that have affected and continue to affect the market prices of equity securities of many technology companies. In the past, stockholders have instituted securities class action litigation following periods of market volatility. If we were involved in securities litigation, we could incur substantial costs and our resources and the attention of management could be diverted from our business.

We are and, upon completion of this offering, will continue to be a “controlled company” within the meaning of the NASDAQ rules and, as a result, we qualify for exemptions from certain corporate governance requirements. You may not have the same protections afforded to stockholders of companies that are subject to such requirements.

Because the Principal Stockholders own a majority of our outstanding common stock, we are and, upon completion of this offering, will continue to be a “controlled company” as that term is set forth in the NASDAQ rules. Under these rules, a company of which more than 50% of the voting power is held by another person or group of persons acting together is a “controlled company” and may elect not to comply with certain NASDAQ rules regarding corporate governance, including:

- the requirement that a majority of our board of directors consist of independent directors;
- the requirement that our governance and nominating committee be composed entirely of independent directors; and
- the requirement that our compensation committee be composed entirely of independent directors with a written charter addressing the committee’s purpose and responsibilities.

As a result, we may not have a majority of independent directors and our governance and nominating committee and compensation committee may not consist entirely of independent directors. See “Directors, Executive Officers and Corporate Governance” in our Annual Report on Form 10-K for the year ended December 31, 2014 for a description of the current composition of our board of directors and each of our committees. As a result, you may not have the same protections afforded to stockholders of companies that are subject to all of the NASDAQ rules regarding corporate governance. Our status as a controlled company could make our common stock less attractive to some investors or otherwise harm our stock price.

Future issuances of debt or equity securities by us may adversely affect the market price of our common stock.

As of April 30, 2015, we have an aggregate of 9,557,303 shares of common stock authorized but unissued and reserved for issuance under our incentive plans. We may issue all of these shares of common stock without any action or approval by our stockholders, subject to certain exceptions.

In the future, we may attempt to obtain financing or to increase further our capital resources by issuing additional shares of our common stock or offering debt or other equity securities, including commercial paper, medium-term notes, senior or subordinated notes, debt securities convertible into equity or shares of preferred stock. Future acquisitions could require substantial additional capital in excess of cash from operations. We

[Table of Contents](#)

would expect to finance the capital required for acquisitions through a combination of additional issuances of equity, corporate indebtedness, asset-backed acquisition financing and/or cash from operations. In addition, we also expect to issue additional shares in connection with exercise of our stock options under our incentive plans.

Issuing additional shares of our common stock or other equity securities or securities convertible into equity for financing or in connection with our incentive plans, acquisitions or otherwise may dilute the economic and voting rights of our existing stockholders or reduce the market price of our common stock or both. Upon liquidation, holders of our debt securities and preferred shares, if issued, and lenders with respect to other borrowings would receive a distribution of our available assets prior to the holders of our common stock. Debt securities convertible into equity could be subject to adjustments in the conversion ratio pursuant to which certain events may increase the number of equity securities issuable upon conversion. Preferred shares, if issued, could have a preference with respect to liquidating distributions or a preference with respect to dividend payments that could limit our ability to pay dividends to the holders of our common stock. Our decision to issue securities in any future offering will depend on market conditions and other factors beyond our control, which may adversely affect the amount, timing or nature of our future offerings. Thus, holders of our common stock bear the risk that our future offerings may reduce the market price of our common stock and dilute their stockholdings in us. See “Description of Common Stock.”

The market price of our common stock could decline due to the large number of outstanding shares of our common stock eligible for future sale.

Sales of substantial amounts of our common stock in the public market in future offerings, or the perception that these sales could occur, could cause the market price of our common stock to decline. These sales could also make it more difficult for us to sell equity or equity-related securities in the future, at a time and price that we deem appropriate. In addition, the additional sale of our common stock by our officers, directors and Principal Stockholders in the public market, or the perception that such sales may occur, could cause the market price of our common stock to decline. All of the shares of common stock sold by the Selling Stockholders in this offering will be freely tradable without restriction or further registration under the Securities Act.

We may issue shares of our common stock or other securities from time to time as consideration for, or to finance, future acquisitions and investments or for other capital needs. We cannot predict the size of future issuances of our shares or the effect, if any, that future sales and issuances of shares would have on the market price of our common stock. If any such acquisition or investment is significant, the number of shares of common stock or the number or aggregate principal amount, as the case may be, of other securities that we may issue may in turn be substantial and may result in additional dilution to our stockholders. We may also grant registration rights covering shares of our common stock or other securities that we may issue in connection with any such acquisitions and investments.

We, each of our executive officers, directors and the Selling Stockholders have agreed with the underwriters not to transfer or dispose of, directly or indirectly, any shares of common stock or any securities convertible into or exercisable or exchangeable for shares of common stock, for a period of 75 days after the date of this prospectus, except for certain limited exceptions. See “Underwriting (Conflicts of Interest).” Approximately 62% of outstanding shares of our common stock or 61% of outstanding shares of our common stock if the underwriters’ option to purchase additional shares from the Selling Stockholders is fully exercised, are subject to these lock-up agreements.

After the expiration of the 75-day lock-up period under the lock-up agreement these shares may be sold in the public market, subject to prior registration or qualification for an exemption from registration, including, in the case of shares held by affiliates, compliance with the volume restrictions and other securities laws. To the extent that any of these stockholders sell, or indicate an intent to sell, substantial amounts of our common stock in the public market after the contractual lock-ups and other legal restrictions on resale discussed in this prospectus lapse, the trading price of our common stock could decline significantly.

[Table of Contents](#)

Goldman, Sachs & Co., on behalf of the underwriters, may, in its sole discretion, release all or some portion of the shares subject to the 75-day lock-up agreements prior to expiration of such period.

Pursuant to the Management Stockholders' Agreement, certain stockholders, which group of stockholders excludes our Principal Stockholders, are provided with piggyback registration rights to participate on a pro rata basis in any registered offering in which the TPG Funds or the Silver Lake Funds are registering shares of common stock.

To the extent that any of these stockholders sell, or indicate an intent to sell, substantial amounts of our common stock in the public market the trading price of our common stock could decline significantly.

Certain provisions of our Stockholders' Agreement, our Certificate of Incorporation, our Bylaws and Delaware law could hinder, delay or prevent a change in control of us that you might consider favorable, which could also adversely affect the price of our common stock.

Certain provisions under our Stockholders' Agreement, our Certificate of Incorporation, our Bylaws and Delaware law could discourage, delay or prevent a transaction involving a change in control of our company, even if doing so would benefit our stockholders. These provisions include:

- a classified board of directors with three classes so that not all members of our board of directors are elected at one time;
- the sole ability of the then-current members of the board of directors to fill a vacancy created by the expansion of the board of directors;
- a provision permitting stockholders to act by written consent only until such time as the Principal Stockholders cease to beneficially own, collectively, more than 40% of our outstanding shares entitled to vote generally in the election of directors;
- a provision prohibiting stockholders from calling a special meeting, provided, however, at any time when the Principal Stockholders beneficially own, collectively, at least 40% of our outstanding shares entitled to vote generally in the election of directors, special meetings of our stockholders may be called by the board of directors or the chairman of the board of directors at the request of either the Silver Lake Funds or the TPG Funds;
- a provision requiring approval of 75% of all outstanding shares entitled to vote generally in the election of directors in order to amend or repeal certain provisions in the Certificate of Incorporation and the Bylaws;
- the requirement that our directors may be removed only for cause by the affirmative vote of at least 75% of our outstanding shares entitled to vote generally in the election of directors; provided, however, at any time when the Principal Stockholders beneficially own, collectively, at least 40% of our outstanding shares entitled to vote generally in the election of directors, directors may be removed with or without cause by a vote of a majority of all outstanding shares entitled to vote generally in the election of directors;
- advance notice requirements for nominations for elections to our board of directors or for proposing matters that can be acted upon by stockholders at our stockholder meetings;
- the ability of our board of directors to issue new series of, and designate the terms of, preferred stock, without stockholder approval, which could be used to, among other things, institute a rights plan that would have the effect of significantly diluting the stock ownership of a potential hostile acquirer, likely preventing acquisitions that have not been approved by our board of directors;
- our opting to have the provisions of Section 203 of the DGCL (as defined in "Description of Common Stock"), which regulates business combinations with "interested stockholders," apply to us after the first date on which each of the Principal Stockholders and their affiliates no longer meets the requirements to be an "interested stockholder" as defined by Section 203 of the DGCL, but excluding for purposes thereof, clause (ii) of such definition of "interested stockholder";

[Table of Contents](#)

- certain rights of our Principal Stockholders with respect to the designation of directors for nomination and election to our board of directors, including the ability to appoint members to each board committee; and
- provisions prohibiting cumulative voting.

Anti-takeover provisions could substantially impede the ability of public stockholders to benefit from a change in control or change of our management and board of directors and, as a result, may adversely affect the market price of our common stock and your ability to realize any potential change of control premium. These provisions could also discourage proxy contests and make it more difficult for you and other stockholders to elect directors of your choosing and to cause us to take other corporate actions you desire. Because our board of directors is responsible for appointing the members of our management team, these provisions could in turn affect any attempt to replace current members of our management team. As a result, efforts by stockholders to change the direction or management of the company may be unsuccessful. See “Description of Common Stock” for additional information regarding the provisions included in our Certificate of Incorporation and our Bylaws.

Certain of our stockholders have the right to engage or invest in the same or similar businesses as us.

Our Principal Stockholders have other investments and business activities in addition to their ownership of us. Under our Certificate of Incorporation, the Principal Stockholders have the right, and have no duty to abstain from exercising such right, to engage or invest in the same or similar businesses as us or which we propose to engage, including those lines of business deemed to be competing with us, do business with any of our clients, customers or suppliers or employ or otherwise engage any of our officers, directors or employees. If the Principal Stockholders or any of their officers, directors or employees acquire knowledge of a potential transaction that could be a corporate opportunity, they have, to the fullest extent permitted by applicable law, no duty to offer or communicate such corporate opportunity to us, our stockholders or our affiliates even if it is a corporate opportunity that we might reasonably have pursued. This may cause the strategic interests of our Principal Stockholders to differ from, and conflict with, the interests of our company and of our other stockholders in material respects.

Conflicts of interest may exist with respect to certain underwriters of this offering.

Affiliates of Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, Deutsche Bank Securities Inc., Morgan Stanley & Co. LLC, Mizuho Securities USA Inc. and Natixis Securities Americas LLC, each an underwriter of this offering, are lenders under our \$405 million Revolver (as defined in our Annual Report on Form 10-K for the year ended December 31, 2014). Furthermore, affiliates of Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner and Smith Incorporated, Deutsche Bank Securities and Jefferies LLC, each an underwriter of this offering, are lenders under our \$1,775 million Term Loan B (as defined in our Annual Report on Form 10-K for the year ended December 31, 2014). In addition, affiliates of Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated, are lenders under our \$425 million Term Loan C (as defined in our Annual Report on Form 10-K for the year ended December 31, 2014). Lastly, affiliates of Goldman, Sachs & Co., Merrill Lynch, Pierce, Fenner & Smith Incorporated and Deutsche Bank Securities Inc., each an underwriter of this offering, are lenders under our \$350 Incremental Term Loan Facility (as defined in our Annual Report on Form 10-K for the year ended December 31, 2014).

In addition, the TPG Funds are affiliates of TPG Capital BD, LLC an underwriter in its offering, and they will receive more than 5% of the net proceeds of this offering. As a result, conflicts of interest could arise because affiliates of TPG Capital BD, LLC will receive proceeds in this offering in addition to the underwriting discounts and commission described in this prospectus received by TPG Capital BD, LLC. See “Underwriting (Conflict of Interest)”.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus supplement, the accompanying prospectus and the documents incorporated by reference contain “forward-looking statements” within the meaning of Section 27A of the Securities Act and Section 21E of the Securities Exchange Act of 1934, as amended (the “Exchange Act”). Forward-looking statements relate to expectations, beliefs, projections, future plans and strategies, anticipated events or trends and similar expressions concerning matters that are not historical facts, such as statements regarding our future financial condition or results of operations, our prospects and strategies for future growth, the development and introduction of new products, and the implementation of our marketing and branding strategies. In many cases, you can identify forward-looking statements by terms such as “may,” “will,” “should,” “expects,” “plans,” “anticipates,” “believes,” “estimates,” “predicts,” “potential” or the negative of these terms or other comparable terminology.

Such forward-looking statements are based on our current expectations and assumptions regarding our business, the economy and other future conditions and are subject to risks, uncertainties and changes in circumstances that may cause events or our actual activities or results to differ significantly from those expressed in any forward looking statement. Although we believe that the expectations reflected in the forward looking statements are reasonable, we cannot guarantee future events, results, actions, levels of activity, performance or achievements. Readers are cautioned not to place undue reliance on these forward looking statements. A number of important factors could cause actual results to differ materially from those indicated by the forward looking statements, including, but not limited to, those factors described in “Risk Factors” and “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” as included in this prospectus supplement and the documents incorporated by reference. These factors include, without limitation, economic, business, competitive, market and regulatory conditions and the following:

- factors affecting transaction volumes in the global travel industry, particularly air travel transaction volumes, including global and regional economic and political conditions, financial instability or fundamental corporate changes to travel suppliers, natural or man-made disasters, safety concerns or changes to regulations governing the travel industry;
- our ability to renew existing contracts or to enter into new contracts with travel supplier and buyer customers, third-party distributor partners and joint ventures on economically favorable terms or at all;
- our Travel Network business’ exposure to pricing pressures from travel suppliers and its dependence on relationships with several large travel buyers;
- the timing and effect of acquisitions, including the acquisition of Abacus and related transactions;
- the fact that travel supplier customers may experience financial instability, consolidate with one another, pursue cost reductions, change their distribution model or experience other changes adverse to us;
- our business being harmed by adverse global and regional economic and political conditions, particularly, given our geographic concentration, those that may adversely affect business and leisure travel originating in, or travel to, the United States and Europe;
- travel suppliers’ use of alternative distribution models, such as direct distribution channels, technological incompatibilities between suppliers’ travel content and our GDS, and the diversion of consumer traffic to other channels;
- our reliance on third-party distributors and joint ventures to extend our GDS services to certain regions, which exposes us to risks associated with lack of direct management control and potential conflicts of interest;
- competition in the travel distribution market from other GDS providers, direct distribution by travel suppliers and new entrants or technologies that could challenge the existing GDS business model;
- potential negative impact of competition from other third-party solutions providers and from new participants entering the solutions market on our ability to maintain and grow our Airline and Hospitality Solutions business;

Table of Contents

- risks associated with the value of our brand, which may be damaged by a number of factors, some of which are out of our control;
- our ability to adapt to technological developments or the evolving competitive landscape by introducing relevant new technologies, products and services;
- systems and infrastructure failures or other unscheduled shutdowns or disruptions, including those due to natural disasters or cybersecurity attacks;
- security breaches occurring at our facilities or with respect to our infrastructure, resulting from physical break-ins; computer viruses, attacks by hackers or similar distributive problems;
- the potential failure to recruit, train and retain key technical employees and senior management;
- risks associated with operating as a global business in multiple countries and in multiple currencies;
- risks associated with acquisitions, divestitures, investments and strategic alliances;
- our ability to protect and maintain our information technology and intellectual property rights, as well as defend against potential infringement claims against us, and the associated costs;
- defects in our products resulting in significant warranty liabilities or product liability claims, for which we may have insufficient product liability insurance to pay material uninsured claims;
- adverse outcomes in our legal proceedings, including our litigation with US Airways or the antitrust investigation by the U.S. Department of Justice, whether in the form of money damages or injunctive relief that could force changes to the way we operate our GDS;
- the possibility that we may have insufficient insurance to cover our liability for pending litigation claims or future claims, which could expose us to significant liabilities;
- our failure to comply with regulations that are applicable to us or any unfavorable changes in, or the enactment of, laws, rules or regulations applicable to us;
- liabilities arising from our collection, processing, storage, use and transmission of personal data resulting from conflicting legal requirements, governmental regulation or security breaches, including compliance with payment card industry regulations;
- the fact that we may have higher than anticipated tax liabilities, our use of federal net operating losses may be subject to limitations on their use in the future and payments under our tax receivable agreement;
- the fact that our pension plan is currently underfunded and we may need to make significant cash contributions to our pension plan in the future, which could reduce the cash available for our business;
- our significant amount of long-term indebtedness and the related restrictive covenants in the agreements governing our indebtedness;
- risks associated with maintaining and improving our financial controls and the requirements of being a public company may strain our resources, divert management’s attention and affect our ability to attract and retain qualified board members;
- the fact that we qualify as a “controlled company” within the meaning of NASDAQ rules and, therefore are exempt from certain corporate governance requirements; and

- other risks and uncertainties, including those listed in the “Risk Factors” section and under “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014.

These statements are based on current plans, estimates and projections, and therefore you should not place undue reliance on them. Forward-looking statements speak only as of the date they are made, and we undertake no obligation to update them publicly in light of new information or future events.

You should carefully consider the risks specified in the “Risk Factors” section of this prospectus supplement, as well as other risks and uncertainties described under “Risk Factors” in Part I, Item 1A of our Annual Report on Form 10-K for the year ended December 31, 2014, in subsequent public statements or reports we file with or furnish to the SEC, before making any investment decision with respect to our securities. If any of these trends, risks or uncertainties actually occurs or continues, our business, financial condition or results of operations could be materially adversely affected, the trading prices of our securities could decline and you could lose all or part of your investment. MARKET AND INDUSTRY DATA AND FORECASTS

This prospectus supplement includes or incorporates by reference industry data and forecasts that we obtained from industry publications and surveys, public filings and internal company sources. Statements as to our ranking, market position and market estimates are based on independent industry publications, government publications, third-party forecasts and management's estimates and assumptions about our markets and our internal research. We have included or incorporated by reference explanations of certain internal estimates and related methods provided in this prospectus supplement along with these estimates. See "Business" and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Annual Report on Form 10-K for the year ended December 31, 2014 and "Management's Discussion and Analysis of Financial Condition and Results of Operations" in our Quarterly Report on Form 10-Q for the quarter ended March 31, 2015. While we are not aware of any misstatements regarding our market, industry or similar data presented herein or in the information incorporated by reference herein, such data involve risks and uncertainties and are subject to change based on various factors, including those discussed in "Cautionary Note Regarding Forward-Looking Statements" and "Risk Factors" included or incorporated by reference in this prospectus supplement.

METHOD OF CALCULATION

The “GDS-processed air bookings” share figures in this prospectus supplement and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus are calculated based on the total number of air bookings processed through the three GDSs, specifically Sabre, Amadeus, and Travelport (including the Worldspan, Galileo and Apollo systems). Measurements of such GDS-processed air bookings are based primarily on Marketing Information Data Tapes and are supplemented with other transaction data and estimates that we believe provide a more accurate measure of GDS-processed air bookings. Because GDSs generally process air bookings for their joint venture partners and/or share in the economics of their joint venture partners’ travel transactions, we include the GDS-processed air booking volumes of each GDS’s joint venture partners in the GDS-processed air bookings share calculations. For example, GDS-processed air bookings from Abacus and INFINI Travel Information, Inc. are included in our GDS-processed air bookings volume and our estimate of GDS-processed air bookings from Topas, Amadeus’ Korean joint venture partner, is included in the Amadeus GDS-processed air bookings volume.

Based on our internal estimates, we believe GDS processed air bookings comprise at least 70% of total air bookings processed through third party distribution systems in 2014, with the remaining 30% comprised of air bookings processed through regional distribution systems that are not joint venture partners of one of the three GDSs. Due to the lack of available industry information on the number of air bookings processed by such regional distribution systems and through direct distribution channels we use the number of GDS-processed air bookings as a proxy for the number of overall industry air bookings. Similarly, we believe industry air bookings share is a good proxy for overall GDS share in our Travel Network business because air bookings comprise the vast majority of the total bookings of the three GDSs.

The GDS-processed air bookings used for GDS-processed air bookings share calculations do not necessarily correspond to the number of bookings billed by each GDS provider because not all processed bookings are billed due to the fact that each GDS provider has a different policy (often varying by region and supplier) as to which transactions processed through its GDS platform are billed.

The hospitality CRS hotel room share figures are calculated based on data for hotel rooms serviced by third-party CRS providers and processed through our GDS. We estimate that approximately a quarter of global hotel properties are available through our GDS and believe this data to be the best available representation of the hotel market due to the lack of comprehensive industry data. Using this data, we compute CRS hotel room share based on total hotel room capacity hosted by the various third-party hospitality CRS providers. We believe this to be the most reliable measure of market share available to us. However, this metric is one we have only recently begun to measure and represents a snapshot in time, which prevents it from being able to convey a trend in market share over time. Therefore, we also include information in this prospectus supplement and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus regarding third-party hospitality CRS bookings share of our GDS because that data is more consistently available for historical periods. Using our GDS data, we compute third-party hospitality CRS bookings share based on total bookings by the various third-party hospitality CRS providers over time. Though we believe third-party hospitality CRS room share to be a more accurate representation of market share, we believe third-party hospitality CRS bookings share is a reasonable proxy to convey changes in third-party hospitality CRS market share over time.

The “Customer Retention” rate figures in this prospectus supplement and other information included or incorporated by reference in this prospectus supplement and the accompanying prospectus are calculated as the aggregate of prior year revenue associated with customers that did not terminate their contract in the given year, as a percentage of the prior year revenue. Customer Retention for Travel Network is calculated based on travel agency contracts, and is measured based on revenue we earn from bookings made by those travel agencies. Customer Retention for Airline Solutions is calculated based on PBs fee-based revenue for our reservation contracts, our principal Airline Solutions offering. Customer Retention for Hospitality Solutions is based on

[Table of Contents](#)

CRS, digital marketing services and call center revenues, which represent over 90% of revenues of our Hospitality Solutions business in each period from 2011 through December 31, 2014. Customer Retention does not measure whether the revenue from any travel agency or reservations customer has increased in the given year compared to the prior year. For example, if ten travel agencies terminated their Travel Network contracts in 2014, and those travel agencies represented a combined 5% of Travel Network revenue in 2013, the Customer Retention for Travel Network in 2014 would be 95%.

The “Recurring Revenue” figures for our:

- (i) Travel Network business is comprised of transaction, subscription and other revenue that is of a recurring nature from travel suppliers and travel buyers, and excludes revenue of a non-recurring nature, such as set-up fees and shortfall payments;
- (ii) Airline Solutions business is comprised of volume-based and subscription fees and other revenue that is of a recurring nature associated with various solutions, and excludes revenue of a non-recurring nature, such as license fees and consulting fees; and
- (iii) Hospitality Solutions business is comprised of volume-based and subscription fees and other revenue that is of a recurring nature associated with various solutions, and excludes revenue of a non-recurring nature, such as set-up fees and website development fees.

Revenues in each of (i), (ii) and (iii) are tied to a travel supplier’s transaction volumes rather than to its unit pricing for an airplane ticket, hotel room or other travel product. However, this revenue is not generally contractually committed to recur annually under our agreements with our travel suppliers. As a result, our Recurring Revenue is highly dependent on the global travel industry and directly correlates with global travel, tourism and transportation transaction volumes. See “Risk Factors—Risks Related to Our Business and Industry—Our revenue is highly dependent on transaction volumes in the global travel industry, particularly air travel transaction volumes,” in our Annual Report on Form 10-K for the year ended December 31, 2014.

USE OF PROCEEDS

The Selling Stockholders will receive all of the net proceeds from the sale of shares of our common stock offered by them pursuant to this prospectus supplement. The aggregate proceeds to the Selling Stockholders from the sale of shares of common stock will be the purchase price of the shares of common stock less discounts and commissions, if any. We will not receive any proceeds from the sale of these shares of common stock, including from any exercise by the underwriters of their option to purchase additional shares. We will bear the costs, other than underwriting discounts and commissions and transfer taxes, associated with this offering in accordance with the Registration Rights Agreement. See “Selling Stockholders” and “Underwriting (Conflicts of Interest).”

MARKET PRICE OF OUR COMMON STOCK

Our common stock has been listed on The NASDAQ Stock Market under the symbol “SABR” since it was listed on April 17, 2014 in connection with our initial public offering. Before then, there was no public market for our common stock. The following table sets forth, for the periods indicated, the high and low sales prices of our shares of common stock as reported by The NASDAQ Stock Market:

	<u>High</u>	<u>Low</u>
Quarter ended June 30, 2014(1)	\$20.91	\$15.00
Quarter ended September 30, 2014	\$20.26	\$17.65
Quarter ended December 31, 2014	\$20.57	\$14.86
Quarter ended March 31, 2015	\$24.55	\$19.22

(1) Represents the period from April 17, 2014, the date on which our common stock first began trading on The NASDAQ Stock Market after the pricing of our initial public offering, through June 30, 2014, the end of our second fiscal quarter.

On May 15, 2015, the last reported sale price on The NASDAQ Stock Market of our common stock was \$26.19 per share. As of April 30, 2015, we had approximately 252 holders of record of our shares of common stock. A substantially greater number of stockholders are beneficial holders of our shares of common stock in “street name” through banks, brokers and other financial institutions that are record holders.

DIVIDEND POLICY

Our board of directors declared cash dividends of \$0.09 per share of our common stock, which were paid on September 16, 2014 to stockholders of record as of September 1, 2014, on December 30, 2014 to stockholders of record as of December 15, 2014, and on March 30, 2015 to stockholders of record as of March 16, 2015. On April 29, 2015, our board of directors declared a cash dividend of \$0.09 per share of our common stock, payable on June 30, 2015 to stockholders of record as of June 19, 2015. We expect to continue to pay quarterly cash dividends on our common stock, subject to the sole discretion of our board of directors and the considerations discussed below. We intend to fund any future dividends from distributions made by our operating subsidiaries from their available cash generated from operations.

Future cash dividends, if any, will be at the discretion of our board of directors and the amount of cash dividends per share will depend upon, among other things, our future operations and earnings, capital requirements and surplus, general financial condition, contractual restrictions, number of shares of common stock outstanding and other factors the board of directors may deem relevant. The timing and amount of future dividend payments will be at the discretion of our board of directors. See “Risk Factors—Our ability to pay regular dividends to our stockholders is subject to the discretion of our board of directors and may be limited by our holding company structure and applicable provisions of Delaware law” in our Annual Report on Form 10-K for the year ended December 31, 2014.

Because we are a holding company with no material direct operations, we are dependent on loans, dividends and other payments from our operating subsidiaries to generate the funds necessary to pay dividends on our common stock. Our subsidiaries are currently restricted from paying cash dividends on our common stock in certain circumstances by the covenants in our Amended and Restated Credit Agreement and in the indenture governing the 2023 Notes and may be further restricted by the terms of future debt or preferred securities.

Our dividend policy has certain risks and limitations, particularly with respect to liquidity. Although we expect to pay dividends according to our dividend policy, we may not pay dividends according to our policy, or at all, if, among other things, we do not have the cash necessary to pay our intended dividends. By paying cash dividends rather than saving or investing that cash, we risk, among other things, slowing the pace of our growth and having insufficient cash to fund our operations or unanticipated capital expenditures.

For a discussion of the application of withholding taxes on dividends, see “Material U.S. Federal Income and Estate Tax Considerations to Non-U.S. Holders.”

- (1) In April 2015, we refinanced our \$480 million 2019 Notes (as defined in our Annual Report on Form 10-K for the year ended December 31, 2014) through the issuance of \$530 million senior secured notes due in 2023 with a stated interest rate of 5.375% (“2023 Notes”). The 2023 Notes were issued by Sabre GLOB Inc. and are guaranteed by Sabre Holdings and each of Sabre GLOB Inc.’s existing and subsequently acquired or organized subsidiaries that are borrowers under or guarantors of the Amended and Restated Credit Agreement. The 2023 Notes are secured by a first priority security interest in substantially all present and after acquired property and assets of Sabre GLOB Inc. and the guarantors of the notes, which also constitutes collateral securing indebtedness under the Amended and Restated Credit Agreement on a first priority basis. We received proceeds of approximately \$522 million, net of underwriting fees and commissions, from the 2023 Notes which were used to redeem all of the \$480 million principal of the 2019 Notes, pay the 6.375% redemption premium of \$31 million and the make whole premium of \$2 million representing scheduled interest payable for the period between the redemption date of April 29, 2015 and the first call date of May 15, 2015. The remaining proceeds, combined with cash on hand, were used to pay accrued but unpaid interest of \$19 million.
- (2) As of March 31, 2015, we had approximately \$1,728 million, \$49 million and \$345 million outstanding under the Term Loan B, Term Loan C and Incremental Term Loan Facility, respectively. As of March 31, 2015, we had no drawn amounts outstanding under the Revolver and \$41 million outstanding under the letter of credit sub-facility, which reduces the amount available to be drawn under the Revolver.
- (3) The outstanding share information set forth above assumes no issuance of shares of common stock reserved for issuance under our equity incentive plans. As of April 30, 2015, an aggregate of 9,557,303 shares of

MATERIAL U.S. FEDERAL INCOME AND ESTATE TAX CONSIDERATIONS TO NON-U.S. HOLDERS

The following discussion is a summary of material U.S. federal income and estate tax considerations generally applicable to the purchase, ownership and disposition of our common stock by Non-U.S. Holders. A “Non-U.S. Holder” means:

- a nonresident alien individual,
- a foreign corporation, or
- a person that is otherwise not subject to U.S. federal income tax on a net income basis in respect of such common stock.

This discussion deals only with common stock held as capital assets by Non-U.S. Holders who purchased common stock in this offering. This discussion does not cover all aspects of U.S. federal income taxation that may be relevant to the purchase, ownership or disposition of our common stock by prospective investors in light of their specific facts and circumstances. In particular, this discussion does not address all of the tax considerations that may be relevant to persons in special tax situations, including persons that will hold shares of our common stock in connection with a U.S. trade or business or a U.S. permanent establishment, hold more than 5% of our common stock, certain former citizens or residents of the United States, are a “controlled foreign corporation,” a “passive foreign investment company” or a partnership or other pass-through entity for U.S. federal income tax purposes, or are otherwise subject to special treatment under the Code, as amended. This section does not address any other U.S. federal tax considerations (such as gift tax) or any state, local or non-U.S. tax considerations. You should consult your own tax advisors about the tax consequences of the purchase, ownership and disposition of our common stock in light of your own particular circumstances, including the tax consequences under state, local, foreign and other tax laws and the possible effects of any changes in applicable tax laws.

Furthermore, this summary is based on the tax laws of the United States, including the Code, existing and proposed regulations, administrative and judicial interpretations, all as currently in effect. Such authorities may be repealed, revoked, modified or subject to differing interpretations, possibly on a retroactive basis, so as to result in U.S. federal income tax or estate tax consequences different from those discussed below.

Dividends

As discussed in “Dividend Policy,” we expect to continue to pay quarterly cash dividends on our common stock. When we make a distribution of cash or property with respect to our common stock, such distributions generally will constitute dividends for U.S. federal income tax purposes to the extent of our current or accumulated earnings and profits, as determined under U.S. federal income tax principles. If a distribution exceeds our current and accumulated earnings and profits, the excess will be treated as a tax-free return of your investment, up to your tax basis in the common stock. Any remaining excess will be treated as capital gain, subject to the tax treatment described below in “—Sale, Exchange or Other Taxable Disposition of Common Stock.”

Dividends paid to you generally will be subject to U.S. federal withholding tax at a 30% rate, or such lower rate as may be specified by an applicable tax treaty. Even if you are eligible for a lower treaty rate, we and other payers will generally be required to withhold at a 30% rate (rather than the lower treaty rate) on dividend payments to you, unless:

- you have furnished to us or such other payer a valid Internal Revenue Service (“IRS”) Form W-8BEN or other documentary evidence establishing your entitlement to the lower treaty rate with respect to such payments and neither we nor our paying agent (or other payer) have actual knowledge or reason to know to the contrary, and

[Table of Contents](#)

- in the case of actual or constructive dividends, if required by the Foreign Account Tax Compliance Act or any intergovernmental agreement enacted pursuant to that law, you or any entity through which you receive such dividends, if required, have provided the withholding agent with certain information with respect to your or the entity's direct and indirect U.S. owners, and if you hold the common stock through a foreign financial institution, such institution has entered into an agreement with the U.S. government to collect and provide to the U.S. tax authorities information about its accountholders (including certain investors in such institution or entity) and you have provided any required information to such institution.

If you are eligible for a reduced rate of U.S. federal withholding tax pursuant to an applicable income tax treaty or otherwise, you may obtain a refund of any excess amounts withheld by timely filing an appropriate claim for refund with the IRS. Investors are encouraged to consult with their own tax advisors regarding the possible implications of these withholding requirements on their investment in the common stock.

Dividends that are "effectively connected" with your conduct of a trade or business within the United States will be exempt from the withholding tax described above and instead will be subject to U.S. federal income tax on a net income basis. We and other payers generally are not required to withhold tax from "effectively connected" dividends, provided that you have furnished to us or another payer a valid IRS Form W-8ECI (or an acceptable substitute form) upon which you represent, under penalties of perjury, that you are a non-U.S. person and that the dividends are effectively connected with your conduct of a trade or business within the United States and are includible in your gross income. If you are a corporate non-U.S. holder, "effectively connected" dividends that you receive may, under certain circumstances, be subject to an additional branch profits tax at a 30% rate, or at a lower rate if you are eligible for the benefits of an income tax treaty that provides for a lower rate.

Sale, Exchange or Other Taxable Disposition of Common Stock

You generally will not be subject to U.S. federal income tax with respect to gain recognized on a sale, exchange or other taxable disposition of shares of our common stock unless:

- the gain is effectively connected with your trade or business in the United States (as discussed under "—Dividends" above),
- in the case of an individual who holds the common stock as a capital asset, such holder is present in the United States for 183 days or more in the taxable year of the sale, exchange or other taxable disposition, and certain other conditions are met, or
- we are or have been a United States real property holding corporation for federal income tax purposes and you held, directly or indirectly, at any time during the five-year period ending on the date of the disposition, more than 5% of our common stock.

In the case of the sale or disposition of common stock on or after January 1, 2017, you may be subject to a 30% withholding tax on the gross proceeds of the sale or disposition unless the requirements described in the last bullet point under "—Dividends" above are satisfied. Investors are encouraged to consult with their own tax advisors regarding the possible implications of these withholding requirements on their investment in the common stock and the potential for a refund or credit in the case of any withholding tax.

We have not been, are not and do not anticipate becoming a United States real property holding corporation for U.S. federal income tax purposes.

Information Reporting and Backup Withholding

We must report annually to the IRS and to each Non-U.S. Holder the amount of dividends paid to such holder and the tax withheld with respect to such dividends, regardless of whether withholding was required.

[Table of Contents](#)

Copies of the information returns reporting such dividends and withholding may also be made available to the tax authorities in the country in which you reside under the provisions of an applicable income tax treaty.

You may be subject to backup withholding for dividends paid to you unless you certify under penalty of perjury that you are a Non-U.S. Holder or otherwise establish an exemption. Any amounts withheld under the backup withholding rules may be allowed as a refund or a credit against your U.S. federal income tax liability provided the required information is timely furnished to the IRS.

U.S. Federal Estate Tax

Shares of our common stock held (or deemed held) by an individual Non-U.S. Holder at the time of his or her death will be included in such Non-U.S. Holder's gross estate for U.S. federal estate tax purposes, unless an applicable estate tax treaty provides otherwise.

UNDERWRITING (CONFLICTS OF INTEREST)

Under the terms and subject to the conditions contained in an underwriting agreement dated the date of this prospectus supplement, Goldman, Sachs & Co. and Merrill Lynch, Pierce, Fenner & Smith Incorporated are acting as the representatives of the underwriters and as joint book-running managers. The underwriters have severally agreed to purchase, and the Selling Stockholders have agreed to sell to them, severally the number of shares indicated below:

The underwriters and the representatives are collectively referred to as the “underwriters” and the “representatives,” respectively. The underwriters are offering the shares of common stock subject to their acceptance of the shares from the Selling Stockholders and subject to prior sale. The underwriting agreement provides that the obligations of the several underwriters to pay for and accept delivery of the shares of common stock offered by this prospectus supplement are subject to the approval of certain legal matters by their counsel and to certain other conditions. The underwriters are obligated to take and pay for all of the shares of common stock offered by this prospectus supplement if any such shares are taken. However, the underwriters are not required to take or pay for the shares covered by the underwriters’ option to purchase additional shares described below. The offering of the shares by the underwriters is subject to receipt and acceptance and subject to the underwriters’ right to reject any order in whole or in part.

The underwriters initially propose to offer part of the shares of common stock directly to the public at the public offering price listed on the cover page of this prospectus supplement and part to certain dealers at a price that represents a concession not in excess of \$ a share under the public offering price. After the initial offering of the shares of common stock, the offering price and other selling terms may from time to time be varied by the representatives, including in connection with sales of unsold allotments of common stock or subsequent sales of common stock purchased by the representatives in stabilizing and related transactions.

The underwriters have an option to buy up to an additional 3,300,000 shares from the Selling Stockholders to cover sales by the underwriters of a greater number of shares than the total number set forth in the table above. They may exercise that option for 30 days from the date of this prospectus supplement. To the extent the option is exercised, each underwriter will become obligated, subject to certain conditions, to purchase about the same percentage of the additional shares of common stock as the number listed next to the underwriter’s name in the preceding table bears to the total number of shares of common stock listed next to the names of all underwriters in the preceding table.

[Table of Contents](#)

Commissions and expenses

The following table shows the per share and total underwriting discounts and commissions to be paid to the underwriters by the Selling Stockholders at the public offering price listed on the cover page of this prospectus supplement, less underwriting discounts and commissions. Such amounts are shown assuming both no exercise and full exercise of the underwriters' option to purchase additional shares from the Selling Stockholders.

Per Share	<u>No Exercise</u>	<u>Full Exercise</u>
Total	\$	\$

We will bear the costs, other than underwriting discounts and commissions and transfer taxes, associated with this offering in accordance with the Registration Rights Agreement. The estimated offering expenses of this offering are approximately \$500,000, which includes legal, accounting and printing costs and various other fees associated with the registration of the common stock to be sold pursuant to this prospectus supplement. In addition, we have agreed to reimburse the underwriters for certain expenses of approximately \$.

Discretionary Sales

The underwriters have informed us that they do not intend sales to discretionary accounts to exceed 5% of the total number of shares of common stock offered by them.

Lock-Up Agreements

We, each of our executive officers, directors and the Selling Stockholders have agreed that, without the prior written consent of Goldman, Sachs & Co. on behalf of the underwriters, we and they will not, during the period ending 75 days after the date of this prospectus supplement:

- offer, sell, contract to sell, pledge, grant any option to purchase, make any short sale or otherwise transfer or dispose of, directly or indirectly, any shares of common stock, or any options or warrants to purchase any shares of common stock, or any securities convertible into, exchangeable for or that represent the right to receive shares of common stock; or
- in our case, file any registration statement with the SEC relating to the offering of any shares of common stock or any securities convertible into or exercisable or exchangeable for common stock;

whether any such transaction described in the first two bullet points above is to be settled by delivery of common stock or such other securities, in cash or otherwise.

With respect to the company, the restrictions described in the preceding paragraphs do not apply to:

- any shares of common stock or securities convertible or exercisable into, exchangeable for or that represent the right to receive shares of common stock, issued by the company, in each case pursuant to the company's equity plans as described therein;
- the filing of a registration statement on Form S-8 (or equivalent form) with the SEC in connection with an employee stock compensation plan or agreement of the company, which plan or agreement is described herein;
- the issuance of shares of common stock or other securities (including securities convertible into shares of common stock) in connection with the acquisition by the company or any of its subsidiaries of the securities, businesses, properties or other assets of another person or entity or pursuant to any employee benefit plan assumed by the company in connection with any such acquisition; or
- the issuance of shares of common stock or other securities (including securities convertible into shares of common stock) in connection with joint ventures, commercial relationships or other strategic transactions;

Table of Contents

provided that, in the case of the last two bullet points above, the aggregate number of shares of common stock issued in all such acquisitions and transactions does not exceed 10% of the issued and outstanding common stock of the company issued and outstanding immediately following the completion of this offering and any recipients of such shares of common stock shall deliver a lock-up agreement to Goldman, Sachs & Co. consistent in scope and length as described in the preceding paragraphs above.

With respect to each of our executive officers, directors and the Selling Stockholders, the restrictions described in the preceding paragraphs do not apply to transfers:

- as a bona fide gift or gifts;
- to any trust for the direct or indirect benefit of such person or the immediate family of such person;
- by way of testate or intestate succession or by operation of law;
- to any members of the immediate family of such person;
- to a corporation, partnership, or limited liability company or other entity that controls or is controlled by, or is under common control with, such person and/or by members of the immediate family of such person, or to any investment fund or other entity controlled or managed by the undersigned;
- if the shares of common stock are held by a corporation, partnership, limited liability company or other entity, to any of its stockholders, partners, members or affiliates or any of its affiliates' directors, officers and employees;
- to the company in connection with the "net" or "cashless" exercise of any options outstanding as of the date of the lock-up agreement and having an expiration date during the 75-day lock-up period to acquire shares pursuant to the employee benefit plans described herein;
- to the company for the primary purposes of satisfying any tax or other governmental withholding obligation with respect to shares issued upon the exercise of an option or warrant (or upon the exchange of another security or securities) pursuant to a plan described in the prospectus, or issued under an employee equity or benefit plan described herein;
- pursuant to the underwriting agreement, or
- pursuant to 10b5-1 plans entered into prior to the date of this prospectus supplement.

Goldman, Sachs & Co., in its sole discretion, may release the common stock and other securities subject to the lock-up agreements described above in whole or in part at any time with or without notice.

Stabilization, Short Positions and Penalty Bids

In order to facilitate this offering of the common stock, the underwriters may engage in transactions that stabilize, maintain or otherwise affect the price of the common stock. Specifically, the underwriters may sell more shares than they are obligated to purchase under the underwriting agreement, creating a short position. A short sale is covered if the short position is no greater than the number of shares available for purchase by the underwriters under their option to purchase additional shares from the Selling Stockholders. The underwriters can close out a covered short sale by exercising their option to purchase additional shares or purchasing shares in the open market. In determining the source of shares to close out a covered short sale, the underwriters will consider, among other things, the open market price of shares compared to the price available under their option to purchase additional shares. The underwriters may also sell shares in excess of their option to purchase additional shares, creating a naked short position. The underwriters must close out any naked short position by purchasing shares in the open market. A naked short position is more likely to be created if the underwriters are concerned that there may be downward pressure on the price of the common stock in the open market after pricing that could adversely affect investors who purchase in this offering. In addition, to stabilize the price of common stock, the underwriters may bid for, and purchase, shares of common stock in the open market. Finally,

[Table of Contents](#)

the underwriting syndicate may reclaim selling concessions allowed to an underwriter or a dealer for distributing the common stock in this offering, if the syndicate repurchases previously distributed common stock to cover syndicate short positions or to stabilize the price of the common stock. These activities may raise or maintain the market price of the common stock above independent market levels or prevent or retard a decline in the market price of the common stock. The underwriters are not required to engage in these activities and may end any of these activities at any time.

The underwriters may also impose a penalty bid. This occurs when a particular underwriter repays to the underwriters a portion of the underwriting discount received by it because the representatives have repurchased shares sold by or for the account of such underwriter in stabilizing or short covering transactions.

Indemnification

We, the Selling Stockholders and the several underwriters have agreed to indemnify each other against certain liabilities, including liabilities under the Securities Act.

RISK FACTORS

Investing in our common stock involves risks. Before deciding to invest in our common stock, you should carefully consider the discussion of risks and uncertainties under the heading “Risk Factors” contained in any applicable prospectus supplement and in the documents that are incorporated by reference in this prospectus. See the sections entitled “Where You Can Find More Information” and “Incorporation by Reference” on pages 11 and 12. The occurrence of any of these risks might cause you to lose all or part of your investment in the offered securities.

USE OF PROCEEDS

Except as otherwise set forth in a prospectus supplement, we intend to use the net proceeds from any sale of our common stock by this prospectus for our general corporate purposes. The net proceeds may be invested temporarily in short-term marketable securities or applied to repay short-term debt until they are used for their stated purpose.

Unless otherwise set forth in a prospectus supplement, we will not receive any proceeds from any sale of our common stock by a selling stockholder.

DESCRIPTION OF COMMON STOCK

The following is a description of the material terms of our third amended and restated certificate of incorporation (the “Certificate of Incorporation”) and second amended and restated bylaws (the “Bylaws”) as they are in effect as of May 18, 2015. This description may not contain all of the information that is important to you. To understand them fully, you should read our Certificate of Incorporation and Bylaws, copies of which are filed as exhibits to the registration statement of which this prospectus forms part, as well as the relevant portions of the Delaware General Corporation Law, as amended (“DGCL”).

For purposes of calculating the Principal Stockholders’ share ownership thresholds described under “—Anti-Takeover Effects of Provisions of Our Certificate of Incorporation and Our Bylaws,” the shares of common stock owned by Sovereign Co-Invest will be deemed to be owned by the Principal Stockholders for purposes of such calculations so long as these shares are owned directly by Sovereign Co-Invest or the managing member of Sovereign Co-Invest has been granted a proxy for purposes of voting such shares.

Common Stock

General. Our Certificate of Incorporation authorizes the issuance of up to 1 billion shares of common stock, par value \$0.01. On April 30, 2015, there were 271,555,117 shares of common stock outstanding. None of our outstanding common stock has been designated as non-voting.

Voting Rights. Holders of common stock are entitled to one vote for each share held on all matters submitted to a vote of stockholders and do not have cumulative voting rights. Accordingly, holders of a majority of the shares of common stock entitled to vote in any election of directors may elect all of the directors standing for election. Except for the election of directors, if a quorum is present, an action on a matter is approved if the votes cast favoring the action or matter exceed the votes cast against the action or matter, unless the vote of a greater number is required by applicable law, the DGCL, our Certificate of Incorporation or our Bylaws. The election of directors will be determined by a plurality of the votes cast in respect of the shares present in person or represented by proxy at the meeting and entitled to vote, meaning that the nominees with the greatest number of votes cast, even if less than a majority, will be elected. The rights, preferences and privileges of holders of common stock are subject to, and may be impacted by, the rights of the holders of shares of any series of preferred stock that we may designate and issue in the future.

Dividends. Holders of our common stock are entitled to receive ratably those dividends, if any, as may be declared by the board of directors out of legally available funds.

Liquidation, Dissolution, and Winding Up. Upon our liquidation, dissolution or winding up, the holders of our common stock will be entitled to share ratably in the net assets legally available for distribution to stockholders after the payment of all of our debts and other liabilities.

Preemptive Rights. Holders of our common stock have no preemptive or conversion rights or other subscription rights, and there are no redemption or sinking funds provisions applicable to our common stock.

Assessment. All outstanding shares of our common stock are fully paid and nonassessable.

Preferred Stock

Our Certificate of Incorporation authorizes the issuance of up to 225 million shares of preferred stock. Under our Certificate of Incorporation, our board of directors may issue additional shares of preferred stock, without stockholder approval, in such series and with such designations, preferences, conversion or other rights, powers, including voting powers, and qualifications, limitations or restrictions thereof, as the board of directors deems appropriate. The board of directors could, without stockholder approval, issue shares of preferred stock

[Table of Contents](#)

with voting, conversion and other rights that could adversely affect the voting power and impact other rights of the holders of the common stock. Our board of directors may issue shares of preferred stock as an anti-takeover measure without any further action by the holders of common stock. This may have the effect of delaying, deferring or preventing a change of control of our company by increasing the number of shares necessary to gain control of the company. There are no shares of preferred stock outstanding as of May 18, 2015.

Anti-Takeover Effects of Provisions of Our Certificate of Incorporation and Our Bylaws

Our Certificate of Incorporation and our Bylaws contain provisions that may delay, defer or discourage another party from acquiring control of us. We expect that these provisions will discourage coercive takeover practices or inadequate takeover bids. These provisions are also designed to encourage persons seeking to acquire control of us to first negotiate with the board of directors, which we believe may result in an improvement of the terms of any such acquisition in favor of our stockholders. However, they may also discourage acquisitions that some stockholders may favor. These provisions include:

Classified Board. Our Certificate of Incorporation provides that our board of directors is divided into three classes of directors, with the classes as nearly equal in number as possible. As a result, approximately one-third of our board of directors is elected each year. The classification of directors has the effect of making it more difficult for stockholders to change the composition of our board. Our Certificate of Incorporation also provides that, subject to any rights of holders of preferred stock to elect additional directors under specified circumstances, the number of directors is fixed exclusively pursuant to a resolution adopted by the board of directors, provided that, the board of directors shall consist of not fewer than five directors, nor more than eleven directors; provided, however, prior to the time when the Principal Stockholders beneficially own, collectively, less than 40% of the outstanding shares of our common stock, the board of directors shall not consist of more than nine directors. Our board of directors is currently comprised of eight directors.

Authorized but Unissued or Undesignated Capital Stock. Our authorized capital stock consists of 1 billion shares of common stock and 225 million shares of preferred stock. A large quantity of authorized but unissued shares may deter potential takeover attempts because of the ability of our board of directors to authorize the issuance of some or all of these shares to a friendly party, or to the public, which would make it more difficult for a potential acquirer to obtain control of us. This possibility may encourage persons seeking to acquire control of us to negotiate first with our board of directors. The authorized but unissued stock may be issued by the board of directors in one or more transactions. In this regard, our Certificate of Incorporation grants the board of directors broad power to establish the rights and preferences of authorized and unissued preferred stock. The issuance of shares of preferred stock pursuant to the board of directors' authority described above could decrease the amount of earnings and assets available for distribution to holders of common stock and adversely affect the rights and powers, including voting rights, of such holders and may have the effect of delaying, deferring or preventing a change of control. The preferred stock could also be used in connection with the issuance of a shareholder rights plan, sometimes referred to as a "poison pill." Our board of directors is able to implement a shareholder rights plan without further action by our stockholders. The board of directors does not intend to seek stockholder approval prior to any issuance of preferred stock, unless otherwise required by law.

Action by Written Consent. Our Certificate of Incorporation provides that stockholder action can be taken only at an annual meeting or special meeting of stockholders and cannot be taken by written consent in lieu of a meeting once the Principal Stockholders cease to beneficially own, collectively, more than 40% of the outstanding shares of our common stock.

Special Meetings of Stockholders. Our Certificate of Incorporation provides that special meetings of our stockholders may be called only by our board of directors or the chairman of the board of directors; provided, however, at any time when the Principal Stockholders beneficially own, collectively, at least 40% of the outstanding shares of our common stock, special meetings of our stockholders may also be called by the board of directors, the chairman of the board of directors or the board of directors or the chairman of the board at the

[Table of Contents](#)

request of either the Silver Lake Funds or the TPG Funds. Our Bylaws prohibit the conduct of any business at a special meeting other than as specified in the notice for such meeting.

Advance Notice Procedures. Our Bylaws establish advance notice procedures with respect to stockholder proposals and the nomination of candidates for election as directors, other than nominations made by or at the direction of the board of directors. In order for any matter to be “properly brought” before a meeting, a stockholder will have to comply with advance notice requirements and provide us with certain information. Generally, to be timely, a stockholder’s notice must be received at our principal executive offices not earlier than the opening of business 120 days prior, and not later than the close of business 90 days before, the first anniversary date of the immediately preceding annual meeting of stockholders. Our Bylaws also specify requirements as to the form and content of a stockholder’s notice. Under our Bylaws, the board of directors may adopt by resolution the rules and regulations for the conduct of meetings. These advance notice provisions do not apply to the Silver Lake Funds or the TPG Funds so long as the Stockholders’ Agreement remains in effect. Except to the extent inconsistent with such rules and regulations adopted by the board of directors, the chairman of the meeting of stockholders shall have the right to adopt rules and regulations for the conduct of meetings, which may have the effect of precluding the conduct of certain business at a meeting if the rules and regulations are not followed. These provisions may also defer, delay or discourage a potential acquirer from conducting a solicitation of proxies to elect the acquirer’s own slate of directors or otherwise attempting to influence or obtain control of us.

Super Majority Approval Requirements. Our Certificate of Incorporation and Bylaws provide that the board of directors is expressly authorized to adopt, make, alter, amend or repeal our Bylaws without a stockholder vote in any matter not inconsistent with the laws of the State of Delaware. For as long as the Principal Stockholders beneficially own, collectively, at least 40% of the outstanding shares of our common stock, any adoption, alteration, amendment or repeal of our Bylaws by our stockholders requires the affirmative vote of the holders of a majority of the voting power of our outstanding common stock. At any time when the Principal Stockholders beneficially own, collectively, less than 40% of the outstanding shares of our common stock, any adoption, alteration, amendment, or repeal of our Bylaws by our stockholders requires the affirmative vote of holders of at least 75% of the voting power of our outstanding common stock.

The DGCL provides generally that the affirmative vote of a majority of the outstanding shares then entitled to vote is required to amend a corporation’s certificate of incorporation, unless the certificate of incorporation requires a greater percentage. Our Certificate of Incorporation provides that at any time when the Principal Stockholders beneficially own, collectively, less than 40% of the outstanding shares of our common stock, certain specified provisions in our Certificate of Incorporation, including those relating to actions by written consent of stockholders, calling of special meetings by stockholders, a classified board, the requirements for the number and removal of directors and amendment of the Certificate of Incorporation and Bylaws, may be amended only by a vote of at least 75% of the voting power of our outstanding common stock.

The combination of the classification of our board of directors, the lack of cumulative voting and the supermajority voting requirements make it more difficult for our existing stockholders to replace our board of directors as well as for another party to obtain control of us by replacing our board of directors. Because our board of directors has the power to retain and discharge our officers, these provisions could also make it more difficult for existing stockholders or another party to effect a change in management.

These provisions may have the effect of deterring hostile takeovers or delaying or preventing changes in control of our management or of us, such as a merger, reorganization or tender offer. These provisions are intended to enhance the likelihood of continued stability in the composition of our board of directors and its policies and to discourage certain types of transactions that may involve an actual or threatened acquisition of us. These provisions are designed to reduce our vulnerability to an unsolicited acquisition proposal. The provisions are also intended to discourage certain tactics that may be used in proxy fights. However, such provisions could

[Table of Contents](#)

have the effect of discouraging others from making tender offers for our shares and, as a consequence, they may also inhibit fluctuations in the market price of our shares of common stock that could result from actual or rumored takeover attempts.

Removal of Directors. Until the point in time at which the Principal Stockholders no longer beneficially own shares representing, collectively, at least 40% of the outstanding shares of our common stock, any director may be removed from office at any time, with or without cause, by holders of a majority of the voting power of our outstanding common stock. Our Certificate of Incorporation provides that, after the point in time at which the Principal Stockholders no longer beneficially own shares representing, collectively, at least 40% of the outstanding shares of our common stock, our directors may be removed only for cause by the affirmative vote of at least 75% of the voting power of our outstanding common stock. This requirement of a supermajority vote to remove directors could enable a minority of our stockholders to prevent a change in the composition of our board.

Business Combinations with Interested Stockholders

Pursuant to our Certificate of Incorporation, we have opted out of the provisions of Section 203 of the DGCL, which regulates business combinations with “interested stockholders,” but only until the first date on which each of the Principal Stockholders and their affiliates no longer meets the requirements to be an “interested stockholder” as defined by Section 203 of the DGCL, but excluding for purposes thereof, clause (ii) of such definition of “interested stockholder.”

Corporate Opportunities

Our Certificate of Incorporation provides that we renounce, to the fullest extent permitted by applicable law, any interest or expectancy in the business opportunities of our Principal Stockholders and their affiliates. In addition our Certificate of Incorporation provides that the Principal Stockholders have no obligation to offer us or even communicate to us an opportunity to participate in business opportunities presented to such Principal Stockholder or its respective affiliates even if the opportunity is one that we might reasonably have pursued (and therefore may be free to compete with us in the same business or similar businesses of which we or our affiliates now engage or propose to engage) and that, to the fullest extent permitted by applicable law, neither the Principal Stockholders nor their respective affiliates will be liable to us or our stockholders for breach of any duty by reason of any such activities described immediately above. Stockholders are deemed to have notice of and consented to this provision of our Certificate of Incorporation.

Limitation of Liability and Indemnification of Officers and Directors

Our Certificate of Incorporation provides that no director shall be personally liable to us or any of our stockholders for monetary damages for breach of fiduciary duty as a director, except to the extent such exemption from liability or limitation thereof is not permitted under the DGCL. Our Bylaws provide that we will indemnify, to the fullest extent permitted by the DGCL, any person made or threatened to be made a party to any action or is involved in a proceeding by reason of the fact that the person is or was our director or officer, or our director or officer who, while a director or officer, is or was serving at the request of Sabre as a director, officer, employee, agent or manager of another corporation, partnership, limited liability company, joint venture, trust or other enterprise or non-profit entity, including service with respect to an employee benefit plan. Our Bylaws also provide that, subject to applicable law, we may, by action of our board of directors, grant rights to indemnification and advancement of expenses to persons other than our directors and officers with such scope and effect as the board of directors may then determine. We have entered into customary indemnification agreements with each of our directors that provide them, in general, with customary indemnification in connection with their service to us or on our behalf.

[Table of Contents](#)

Insofar as indemnification for liabilities arising under the Securities Act may be permitted to directors, officers and controlling persons of the registrant pursuant to the foregoing provisions, or otherwise, the registrant has been advised that in the opinion of the SEC such indemnification is against public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the registrant of expenses incurred or paid by a director, officer or controlling person of the registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the securities being registered, the registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

Choice of Forum

Our Certificate of Incorporation provides that unless we consent to the selection of an alternate forum, the Court of Chancery of the State of Delaware is the sole and exclusive forum for any derivative action or proceeding brought on our behalf; any action asserting a breach of fiduciary duty; any action asserting a claim against us arising pursuant to the DGCL, our Certificate of Incorporation or Bylaws; or any action asserting a claim against us that is governed by the internal affairs doctrine. Any person or entity purchasing or otherwise acquiring any interest in our shares of common stock shall be deemed to have notice of and consented to the forum provisions in our Certificate of Incorporation.

Transfer Agent and Registrar

American Stock Transfer & Trust Company, LLC is the transfer agent and registrar for our common stock.

Stockholders' Agreement

We are a party to a Stockholders' Agreement (as amended and restated, the "Stockholders' Agreement") with the Silver Lake Funds, the TPG Funds and Sovereign Co-Invest. The Stockholders' Agreement provides that the Silver Lake Funds and the TPG Funds will have certain nomination rights to designate candidates for nomination to our board of directors and, subject to any restrictions under applicable law or the NASDAQ rules, the ability to appoint members to each board committee.

As set forth in the Stockholders' Agreement, for so long as the Silver Lake Funds collectively own at least 22 million shares of our common stock, they will be entitled to designate for nomination two of the seats on our board of directors. Thereafter, the Silver Lake Funds will be entitled to designate for nomination one director so long as they own at least 7 million shares of our common stock. Further, for so long as the TPG Funds collectively own at least 44 million shares of our common stock, they will be entitled to designate for nomination three of the seats on our board of directors. When the TPG Funds collectively own less than 44 million shares of our common stock, but at least 22 million shares of our common stock, the TPG Funds will be entitled to designate for nomination two directors. Thereafter, the TPG Funds will be entitled to designate for nomination one director so long as they own at least 7 million shares of our common stock.

In addition, the Silver Lake Funds and the TPG Funds also jointly have the right to designate for nomination one additional director (the "Joint Designee"), who must qualify as independent under the NASDAQ rules and must meet the independence requirements of Rule 10A-3 of the Exchange Act, so long as the Silver Lake Funds and the TPG Funds collectively own at least 10% of their collective shares of our common stock held by them at the closing of our initial public offering (the "Closing Date Shares"). However, if the Silver Lake Funds and the TPG Funds collectively own at least 10% of their collective Closing Date Shares and either individually owns less than 5% of its individual Closing Date Shares, then the Joint Designee shall be designated for nomination solely by the entity that owns more than 5% of its individual Closing Date Shares.

[Table of Contents](#)

We are required, to the extent permitted by applicable law, to take all necessary action (as defined in the Stockholders' Agreement) to cause the board of directors and the governance and nominating committee to include such persons designated by the Silver Lake Funds or the TPG Funds, as applicable, in the slate of director nominees recommended by the board of directors for election by the stockholders and solicit proxies and consents in favor of such director nominees. Subject to the terms of the Stockholders' Agreement, each Principal Stockholder agrees to vote its shares in favor of the election of the director nominees designated by the Silver Lake Funds and the TPG Funds.

In accordance with the Stockholders' Agreement, the TPG Funds have appointed Mr. Bravante, Mr. Kusin and Mr. Peterson to our board of directors and the Silver Lake Funds have appointed Mr. Mondre and Mr. Osnoss to our board of directors.

In addition, the Stockholders' Agreement contains agreements among the parties, including with respect to transfer restrictions, tag-along rights, drag-along rights and rights of first refusal. The Stockholders' Agreement also provides that, so long as the Silver Lake Funds and the TPG Funds collectively own at least 40% of their collective Closing Date Shares, approval of at least a majority of the board of directors, including at least one director nominated for designation by the Silver Lake Funds and one director nominated by the TPG Funds must be obtained before we are permitted to take any of the following actions:

- any merger, consolidation or sale of all or substantially all of the assets of Sabre or any of its subsidiaries;
- any voluntary liquidation, winding up or dissolution of Sabre or any of its subsidiaries or the initiation of any actions related to a voluntary bankruptcy, reorganization or recapitalization of Sabre or any of its subsidiaries;
- acquisitions or dispositions, or a related series of acquisitions or dispositions, of assets with a value in excess of \$50 million or the entering into of a joint venture requiring a capital contribution in excess of \$50 million by either Sabre or any of its subsidiaries;
- any fundamental change in Sabre's or its subsidiaries' existing lines of business or the entry by Sabre or any of its subsidiaries into a new significant line of business;
- any amendment to the Certificate of Incorporation or Bylaws of Sabre or Sabre Holdings;
- incurrence by Sabre or any of its subsidiaries of any indebtedness or derivatives liability, or any series of indebtedness or derivative liabilities in an aggregate amount in excess of \$150 million or amending in any material respect the terms of existing or future indebtedness or derivatives liability in excess of \$150 million; and
- hiring and termination of our CEO.

In the case of a vacancy on our board of directors created by the removal or resignation of a director designated by the Silver Lake Funds or the TPG Funds, as applicable, the Stockholders' Agreement requires us to nominate an individual designated by such entity for election to fill the vacancy.

Registration Rights

On March 30, 2007, we entered into a registration rights agreement (the "Registration Rights Agreement") with the TPG Funds, the Silver Lake Funds and Sovereign Co-Invest, which was amended and restated in connection with the completion of our initial public offering in April 2014. This Registration Rights Agreement provides the Silver Lake Funds and the TPG Funds with demand and shelf registration rights following the expiration of any lock-up period relating to the initial public offering and Sovereign Co-Invest with the right to participate in such demand and shelf registrations. In addition, the Registration Rights Agreement also provides the Principal Stockholders with piggyback registration rights on any registration statement, other than on

[Table of Contents](#)

Forms S-4, S-8 or any other successor form, to be filed by us. These registration rights are subject to certain conditions and limitations, including the right of the underwriters to limit the number of shares to be included in a registration statement and our right to delay a registration statement under certain circumstances.

Under the Registration Rights Agreement, we have agreed to pay certain expenses related to any such registration to indemnify the Principal Stockholders against certain liabilities that may arise under the Securities Act.

Management Services Agreement

On March 30, 2007, we entered into a management services agreement (the “MSA”) with affiliates of TPG and Silver Lake (the “Managers”) to provide us with management, advisory and consulting services. Pursuant to the MSA, we have been required to pay to the Managers monitoring fees, payable quarterly in arrears, totaling to between \$5 million to \$7 million per year, the actual amount of which is calculated based upon 1% of Adjusted EBITDA, as defined in the MSA, earned by Sabre in such fiscal year up to a maximum of \$7 million. During the years ended December 31, 2014, 2013 and 2012, the annual monitoring fee paid to the Managers was \$2 million, \$7 million and \$7 million, respectively, in each year. Additionally, we reimbursed the Managers for all out-of-pocket expenses incurred by them or their affiliates in connection with services provided to us pursuant to the MSA. For the year ended December 31, 2014 these amounts were not material. For the years ended December 31, 2013 and 2012 the amount reimbursed in expenses was \$2 million and \$1 million, respectively. In connection with the completion our initial public offering in April 2014 and in contemplation of providing continued services to Sabre after the initial public offering, the Managers received a fee payable pursuant to the MSA in an amount equal to, in the aggregate, \$21 million plus other unpaid fees and expenses and, thereafter, the MSA was terminated. The MSA included customary exculpation and indemnification provisions in favor of the affiliates of TPG and Silver Lake.

Management Stockholders’ Agreement

We and certain stockholders, including certain executive officers and directors, have entered into a management stockholders agreement (the “Management Stockholders’ Agreement”) with certain stockholders, which group of stockholders excludes our Principal Stockholders. The Management Stockholders’ Agreement contains certain agreements among the parties including with respect to call rights in certain specified situations for shares of common stock then-currently owned, drag along rights, tag along rights and transfer restrictions. The Management Stockholders’ Agreement provides these stockholders with piggyback registration rights to participate on a pro rata basis in any registered offering in which the TPG Funds or the Silver Lake Funds are registering shares of common stock. Except with respect to the piggyback registration rights described immediately prior, the Management Stockholders’ Agreement terminates if our common stock is registered and if at least 20% of our total outstanding common stock trades regularly in, on or through the facilities of a securities exchange and/or inter-dealer quotation system or any designated offshore securities market. These conditions have been met.

Exchange

Our common stock is listed on the NASDAQ under the symbol “SABR.”

PLAN OF DISTRIBUTION

We or the selling stockholders may offer and sell from time to time, together or separately, shares of our common stock covered by this prospectus in one or more or any combination of the following transactions:

- on the NASDAQ, in the over-the-counter market or on any other national securities exchange on which our shares are listed or traded;
- in privately negotiated transactions;
- in underwritten transactions;
- in a block trade in which a broker-dealer will attempt to sell the offered shares as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- through purchases by a broker-dealer as principal and resale by the broker-dealer for its account pursuant to this prospectus; and
- through any other method permitted by applicable law.

We or the selling stockholders may sell our common stock at prices then prevailing or related to the then current market price or at negotiated prices. The offering price of our common stock from time to time will be determined by us or the selling stockholders, as applicable, and, at the time of the determination, may be higher or lower than the market price of our common stock on the NASDAQ or any other exchange or market.

Our common stock may be offered to the public, from time to time, through broker-dealers acting as agent or principal, including through underwriting syndicates represented by one or more managing underwriters or directly by one or more of such firms in one or more transactions, including negotiated transactions, at a fixed public offering price or at varying prices determined at the time of sale. The obligations of the underwriters to purchase the shares of common stock will be subject to the conditions set forth in the applicable underwriting agreement. Any public offering price and any discounts or concessions allowed or reallocated or paid by underwriters or dealers to other dealers may be changed from time to time. The underwriters will be obligated to purchase all of the offered shares if they purchase any of the offered shares.

In connection with an underwritten offering, underwriters or agents may receive compensation in the form of discounts, concessions or commissions from us or the selling stockholders, as applicable, or from purchasers of the offered shares for whom they may act as agents. In addition, underwriters may sell our common stock to or through dealers, and those dealers may receive compensation in the form of discounts, concessions or commissions from the underwriters and/or commissions from the purchasers for whom they may act as agents. The selling stockholders and any underwriters, dealers or agents participating in a distribution of our common stock may be deemed to be “underwriters” within the meaning of the Securities Act, and any profit on the sale of the shares by the selling stockholders and any commissions received by broker-dealers may be deemed to be underwriting commissions under the Securities Act.

We and the selling stockholders each may agree to indemnify an underwriter, broker-dealer or agent against certain liabilities related to the selling of our common stock, including liabilities arising under the Securities Act.

At any time a particular offer of shares of common stock covered by this prospectus is made, a revised prospectus or prospectus supplement, if required, will set forth the aggregate amount of shares of common stock covered by this prospectus being offered and the terms of the offering, including the name or names of any underwriters, dealers, brokers or agents. In addition, to the extent required, any discounts, commissions, concessions and other items constituting underwriters’ or agents’ compensation, as well as any discounts, commissions or concessions allowed or reallocated or paid to dealers, will be set forth in such revised prospectus or prospectus supplement. Any such required prospectus or prospectus supplement, and, if necessary, a post-

effective amendment to the registration statement of which this prospectus is a part, will be filed with the SEC to reflect the disclosure of additional information with respect to the distribution of our common stock covered by this prospectus.

To facilitate the offering of shares covered by this prospectus, certain persons participating in the offering may engage in transactions that stabilize, maintain or otherwise affect the price of our common stock. This may include over-allotments or short sales of our common stock, which involve the sale by persons participating in the offering of more common stock than we or the selling stockholders sold to them. In these circumstances, these persons would cover such over-allotments or short positions by making purchases in the open market or by exercising their over-allotment option, if any. In addition, these persons may stabilize or maintain the price of our common stock by bidding for or purchasing our common stock in the open market or by imposing penalty bids, whereby selling concessions allowed to dealers participating in the offering may be reclaimed if our common stock sold by them is repurchased in connection with stabilization transactions. The effect of these transactions may be to stabilize or maintain the market price of our common stock at a level above that which might otherwise prevail in the open market. These transactions may be discontinued at any time.

The specific terms of any lock-up provisions in respect of any given offering will be described in the applicable prospectus supplement.

In the ordinary course of their business activities, any underwriter, broker-dealer or agent and their respective affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers and may at any time hold long and short positions in such securities and instruments. Such investment and securities activities may involve our securities and other instruments. Any underwriter, broker-dealer or agent and their respective affiliates may also engage in transactions with or perform services for us or provide other types of financing to us in the ordinary course of their business.

To the extent required, this prospectus may be amended and/or supplemented from time to time to describe a specific plan of distribution.

To comply with applicable state securities laws, our common stock covered by this prospectus will be sold, if necessary, in such jurisdictions only through registered or licensed brokers or dealers. In addition, our common stock may not be sold in some states absent registration or pursuant to an exemption from applicable state securities laws.
